Turn on a game-changer

World class connected lighting that puts the power of IoT in your hands

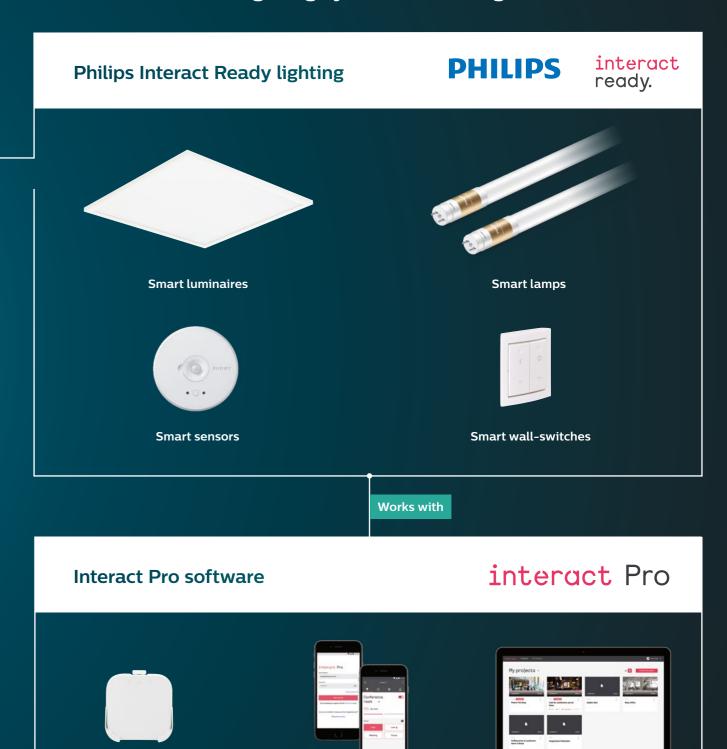

Many business owners will go the extra mile to get the very best out of their most important assets – their people. The working environment has a direct impact on their morale and productivity. There are many ways to achieve a better workplace – and one of them is through the right lighting.

Why upgrade to connected lighting?

Connected lighting means that LED lights with **integrated sensors** are connected to **application software**. As a result, it's possible to automize and optimize light settings for different areas within the building, allow users to **personalize light settings** and business owners to collect anonymized data on **energy and cost performance**.

With the new Interact Pro dashboard and app, connected lighting is now available to small and medium enterprises with up to 200 light points — at a price that makes upgrading a no-brainer. It seamlessly works with our Interact Ready CoreLine luminaires and MasterConnect LED tubes which offer a direct point-for-point replacement of conventional lights.

Bright benefits for your customers

Installing lights — enjoying advantages

Saving energy and costs while providing the best possible light to work, create and do business in:

Connected lighting is all this and more. Preparing for this next chapter in lighting means investing in productivity, sustainability, innovation and image.

The benefits for your customer:

- ✓ Optimized and personalized light levels for daily business, supporting employees, tasks, safety and security
- ✓ Maximum energy and cost savings via schedules, motion and daylight sensing
- ✓ Demonstrate social responsibility
- ✓ Monitor lighting and energy with the Interact Pro dashboard for further optimization

With connected lighting you can offer your customers a smart upgrade of conventional lights. Recommending and installing connected lighting solutions also gives you the chance to become their trusted expert in this new and expanding field.

The benefits for you:

- ✓ World class connected lighting for small- and medium-sized enterprises
- ✓ Easy to install, no need for separate antennas, radio boxes or signal cables
- ✓ Speedy set up with the intuitive Interact Pro app
- Get invaluable data from the Interact Pro dashboard and become a trusted advisor
- ✓ The Interact Pro app and dashboard were seamlessly with our Interact Ready luminaires and lamps

Built for success

The **Interact Pro dashboard and app** work with a range of Philips luminaires and lamps and a set of wireless switches and sensors that are Interact Ready. You can customize the software's settings for specific workspaces. Whether you're connecting 20 light points or 200, Interact Pro helps everyone to work smarter.

More performance – less hassle:

Technical support

hours

Installers

- ✓ Project and user management administration
- Easy joining of light sources
- ✓ Linked light source and accessories information
- ✓ Creation of rooms, zones, on/off/dim and customization

Business owners

- ✓ Lighting scene management and scheduling
- Energy consumption feedback
- ✓ Various user rights settings

- ✓ Link to (Wifi) router via Ethernet cable
- ✓ Connect up to 200 light points

Installers

- ✓ Save time and money by making fewer unnecessary trips
- ✓ Guarantee and provide a professional service level to customers
- Improve relationships with customers by taking a proactive approach in providing data-driven advice
- ✓ Identify and respond to issues like performance problems or forecasted device failures ahead of time
- ✓ Identify and order the correct parts as soon as they're needed

Business owners

- ✓ Desktop view of information provided in the Interact Pro app
- ✓ Adapt lighting, set scenes and adjust schedule settings
- ✓ Manage user rights and monitor energy usage

CoreLine surfacemounted luminaire

Office motion sensor

Wireless switch

Philips lighting for every task and taste

No matter what your customer's lighting needs are, Philips offers a wide product range of **Interact Ready luminaires and lamps** created for a maximum of performance personalization and design.

All components, including wireless sensors and wall switches are interoperable, upgradeable and made to provide customers with the light, comfort and convenience their business deserves.

- ✓ Energy-saving, robust and reliable
- ✓ Hole-for-hole replacement of conventional lighting
- ✓ No additional components or wiring needed
- ✓ Future proof: easy software updates over the air
- ✓ Independent intelligent behavior of luminaires and lamps simplifies setup and ensures reliable function
- ✓ No compatibility issues due to thorough testing
- Affordable solution for small and medium enterprises
